McCarthy for \$100; and the list varies, Here is a prime fact for romance. One of the three rocks is called In-accessible, a second Nightingale, and the third Tristan. The nearest spot the third Tristan. The nearest spot on which men live is St. Helena; and that dwarf island is a trifle of 1,200 miles to the north. A little story, something like that of the Pine Islanders, like that of the Pitcairn Islanders, lends charm to this lonely group. During the early days of Napoleon's captivity in St. Helena, a few sappers and guards were thrown upon Tristan, who dug a ditch, raised a battery, threw up log huts and cleared a patch of soil When they had been a year on their lonely station, they were fetched away, no one knew why. A corporal by the name of Glass got leave to stay behind and keep the place for the British crown. Three Yankees had been there before, one of whom, a man named Jonathan Lambert, had taken possession of the islet, not for the great republic, but for Jonathan Lambert himself, who was declared by Jonathan, in a regular proclamation, to be sovereign owner and prince of the then lonely rocks. Jonathan being gone, Glass took up the scepter, and persuaded two fellows to stay and share his empire. Happily Glass had a wife, a creole woman, and two children, so that human interests came into play at once. The little party, after making Glass Governor of the island, fell on the soil, part of which Lambert had cleared, and harvested vast quantities of potatoes. Now and then a stray seaman joined the colony, and two women came among Photograph Albums, them from the distant cape. Seven years after Glass and his folks were left alone, the colony had grown into twenty-two men and three women. Glass told the Captain of H. M. S. the Berwick, "that they only re-

The Prince went on shore and visited the shanties of those curious people, to whom the chaplain offered his services in baptizing all the Done in the neatest and latest styles at short youngsters and marrying all the stray couples who might feel virtously inclined and ready for the yoke. The youngsters came up in troops to be haptized; but when the reverend gentleman mentioned marriage, the maidens were coy and the bachelors shy to appear. Perhaps they did not like marrying in the Prince's presence. Mr. Miller gave them two hours to consider his proposition, and lingered in vain. As ne says, with much professional regret, there were seven girls on the island old enough to marry, and seven young men, all of whom were "eligible" for the sacrifice, yet the two hours slipped away without bringing the young men or the blushing girls to the altar of hymen. The Prince could not wait; and the British chaplain, though burning with zeal to bind these benighted swains and nymphs in holy matrimony, had to push off for the Galatea, leaving them as wild in morals and free in life as they had been before his advent. DEATH OF THE LARGEST MAN IN MARYLAND,

John S. Elliott died at his residence, in Queen Anne's county, Md., on Sunday the 22d inst., aged fifty-nine years. He was the largest man ever raised in Maryland, and perhaps in the United States. A few years ago, while exhibiting, he weighed nearly five hundred pounds; of late he had fallen off, and his weight was reduced to less than tour hundred pounds. In height he was five feet ten inches, and two feet across from shoulder to shoulder. He generally enjoyed good health, but the disease from which he died carried him off after a few days' illness. He was a native of Queen Anne's county, but was well known in the adjacent counties.

A COMFORTABLE VICARAGE. The most lucrative living in the English church has just been made vacant by the death of its late holder. This is the living of Doddington, a country parish, to which is joined also that of Marsh, and it is worth the round sum of eight thousand pounds a year. The gift belongs to a nobleman, not an archbishop, and he is likely to be as closely run down by applicants for the position ns Gen. Grant is by the office-seekers for foreign missions and the like. No office that Gen. Grant can dispose of yields, in a legitimate way, forty thousand dollarin gold, and certainly no popular preaches in America receives such a salary for his clerical ministrations.

A TRAINING school for domestics has long been in contemplation by benevoent persons in New York, and it is now asserted that such an institution will soon be established. The question, however, arises, will young girls attend such a school when they can be trained in a family, and at the same time receive their food and lodging at \$3 per week for their services? It is asserted that at certain times of the year the supply of female labor in large cities greatly exceeds the demand. At these periods ignorant and unskilled women suffer many hardships from the lack of emplayment, and a training-school would then have no difficulty in obtaining pu-

It is asserted that a very "loyal" an very pious editor in Troy, New York whose sympathics have always been deep ly moved in behalf of the suffering negro has suffered his own father to die in an lowa poorhouse, without sending him the aid he was amply able to furnish. It has not failed in a single instance to have the wished for effect. I am doing a pretty large country practice, and have daily use for some at ticle of the kind. I am free to confess that know of no reanedy recommended by the ablest authors that is so certain and speely in its effects. On the contrary they are uncertain in the extreme. My object in writing you is to find out upon what terms I can get the medicine directly from you. It I can get it upon easy terms, I shall use a great deal of it. I am aware that the use of such articles is contrary to the teachings and practice of a great majority of the REGULAS line of M. D.'s, but i see no just cause or good sense in discarging a remedy which we know to be efficient, simply because we may be ignorant of tecombination. For my part, I shall make it relict use all and any means to alleviate suffer a humanity which I may be able to command—not hesitaking because some one more ingenious than myself may have learned its effects first, and secured the sole right to secure that knowledge. However, I am hy no means an advocate or supporter of the thousands worthless nestrums that floothe country, that purport to cure all manner of DR. Da. John Bull.—Dear Sir: Knowing the efficiency of your Sarsaparilla, and the healing and beneficial qualities it possesses, I send you the following statement of my case:

I was wounded about two vears ago—was taken prisoner and comined for sixteen months. Being moved so often, my wounds have not healed yot. I have not sat up a moment since I was wounded. I am shot through the hips. My general health is impaired, and I need something to assist nature. I have more faith in your Sarsaparilla than anything else. I wish that that was genuine. FOR THE CURE OF

AGUE AND FEVER.

OB CHILLS AND FEVER The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the safe, certain, speedy and permanent cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the cuand Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and South-western country to bear him testimony to the truth of the assertion, that in no case whatever will it fail to care, if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been curred by single bottle, with a periest restoration of general health. It is, however, prudent, and in every case more cartain to care, if its use is continced in smaller doses for a week or two siter the disease has been checked, more especially in difficult and long standing cases. Usually, this medicine will not require any aid to keep the bowels in good order; should the patient however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL's Vegetable Family Plis will be sufficient.
